VOL. XXVIII, No. 38

DIDSBURY, ALBERTA, THURSDAY, SEPTEMBER 24, 1931

\$2.00 per Year. 5 cents a copy

Mountain View Council Meeting

The regular meeting of the council of Mountain View Municipality was held at Olds Saturday last with Reeve Flynn in the chair. All the councillors were present.

Deputations from both Olds and Didsbury Agricultural Societies appeared before the council and asked that grants be given to each society. The council decided that a grant of \$100 each be made.

It was decided to renew membership to the Alberta Association of Municipalities and that representatives be sent to the convention.

The secretary reported that nine taxpayers had made assignment to the debt adjustment board.

An application was made for mothers allowance, but no action was taken pending further investigation.

Messrs. W. Shaw, J. Fisher, William and Charles Sargeant were granted exemption of the wild land tax when it was shown that a sufficient number of cattle had been pastured on the land.

The secretary's monthly statement showed that the expense of roadwork this season had been cut down, though considerable work had been done. Slightly over \$10,000 had been expended on road construction and maintenance so far this season.

Coming Events

Don't forget the Go-Getters dance in Mr. A. Krebs' new barn, Friday evening, September 25th. Sunnyslope music.

The L.O.D.E. masquerade ball will be held at Didsbury Opera House Friday, October 9th. Prizes for best costumes, drawing for hope chest and other attractions.

CARD OF THANKS

Mrs. Richardson and family wish to thank all their friends and neighbors for the kindness and sympathy shown during their recent bereavement.

Rosebud Inter-Schools Track Meet.

The Rosebud Inter-Schools Track Meet will be held at Innisfail Friday, October 2nd.

A splendid program of sports has been prepared and it is expected that there will be some real competitions.

Among those who will take part will be Margaret Fitzpatrick who at the Westsiding Dominion meet recently established two new Canadian records for juniors, the 70 meter race and also the running broad jump.

The local schools will be well represented and the school athletes are busy training for the event.

Agricultural Society Receives Grant

Didsbury Agricultural Society received the grant from the provincial government for the season's work this last week. The grant amounted to \$835 and is half the amount of the prize money paid out and 50 cents for each membership paid.

Sunnyslope School Fair Is Successful

The Sunnyslope school fair held recently brought commendation from the judges on the high class of sheep, dairy calves and vegetables exhibited.

The sports program was interrupted by rain, but was resumed later when the teachers played the high school team at softball which resulted in a 17-16 victory for the teachers.

In the inter-school sports, Britain Nelson suggested the greatest number of points among the boys, while Wilma Kirk's spectacular running assured her of the girls' championship.

BIRTHS

On September 16th at Didsbury General Hospital, to Mr. and Mrs. David Janzen, a son.

LOCAL & GENERAL

Mr. W. J. McCoy who has been travelling roads at Westlock during the summer, returned home Friday.

The mill-rate for the town of Innisfail has been reduced 1 mill and is now 51 7 mills.

Mrs. J. W. Phillipson and Margaret are visiting friends at Red Deer this week.

Miss Marjorie Robinson, of Calgary was visiting the Lowrie family over the week end.

Mr. Gray Sharp returned to Edmonton this week to complete his University course.

Miss Eva Rupp left Tuesday for Edmonton to take up her studies at the University.

Frank Moyle returned to the University of Alberta Tuesday, after spending the vacation at his home here.

Mrs. G. A. Nixon, of Edmonton who has been visiting her sister, Mrs. J. L. Clarke, returned to her home on Saturday.

Mr. E. A. Brubacher who was confined to the hospital for some time, was able to return home on Saturday.

The Ladies Aid of Knox United Church are planning to give an entertainment in the Opera House, October 24th. Watch for further press notices.

At the convention of the Alberta Medical Association held at the Palliser Hotel, Calgary last week, Dr. J. L. Clarke was elected a member of the executive.

Mr. Everard Clarke returned last week-end from Great Falls, Montana and states that business conditions in the northern part of that state are worse than here in Alberta.

Messrs. Cliff Eash and Jim Audhull who have been vacationing at Windermere, visited with Mr. and Mrs. Ivan Weber last weekend, en route for their home at Moose Jaw.

Mr. and Mrs. W. S. Durrer are attending the funeral directors' convention which is being held Tuesday and Wednesday this week at the Palliser Hotel, Calgary.

Mrs. R. A. Gulliver has opened her classes for the piano and has received quite a number of pupils. She still has a few vacancies and will be pleased to receive both beginners and advanced students.

All those who signed the quantity to make up the deficit of the baseball club are requested to call at the secretary's office. Bill McFarquhar the secretary says that he is always at his office from 8 a.m. to 6 p.m. during the week and from 8 a.m. to 11 p.m. on Saturdays.

Obituary.

Mrs. JEANNETTE SWINGLE

After a long illness, Mrs. Jeannette Swingle passed away on Sunday at the home of her daughter, Mrs. R. Honey, west of Didsbury.

The deceased was born in Pennsylvania in 1843 and was married to Alexander Swingle in 1861 and went to reside in Iowa. In 1880 they moved to south Dakota where her husband died. In 1901, she moved with her family to Didsbury and has since resided here.

She joined the Church of the Brethren in south Dakota and had been a member for thirty-five years. She is survived by four sons: Owen R., of Chilliack, B.C., Walter A., of Salem, Oregon, Gile of California, Leroy V., of Didsbury and three daughters: Mrs. E. M. Warren, Mrs. H. R. Ross and Mrs. R. W. Honey, all of Didsbury.

The funeral was held Tuesday, September 22nd at Westsiding, Rev. A. J. Mitchell conducting the service, there being a very large gathering of friends and neighbors.

RICHARDSON

Harry Richardson who resided south east of Didsbury, died on Thursday last in Didsbury Hospital after a short attack of pneumonia.

Mr. Richardson who was 75 years of age was born at Pelly, Alaska, England and came with his family to this district twenty-one years ago and earned here until the time of his death.

He leaves to mourn his loss: his wife, four sons: Harry, George, Bert and Fred who reside at home and three married daughters: Mrs. J. McCulloch, Mrs. J. G. Gomer and Mrs. Floyd Algrain, all of whom live in the district.

The funeral was held at Carstairs, with Rev. T. E. Armstrong, of Carstairs, conducting the service.

The following neighbors acted as pallbearers: Messrs. W. McCulloch, Hugh McLean, W. Algrain, E. Kennell, E. Seibert and A. Huchler.

Weekly Sermonette.

"It is sad for a wagon to have a tongue, but wrong for a Christian to have a naughty tongue."

Bible Society's Annual Meeting

The annual meeting of the Didsbury Branch of the British and Foreign Bible Society held on Tuesday evening in the Evangelical Church was an occasion of unusual interest to the large congregation that completely filled the church.

The principal speaker was Rev. A. W. Banfield, F.R.S., who for thirty years has been a missionary in west and central Africa and for fifteen years the secretary of the west Africa agency of the Bible Society.

The subject of Mr. Banfield's address was "Africa's Wild Man Problem" and was illustrated with fifty beautifully colored slides showing the vast country in which he travelled. The audience had made way real to them the great possibilities of Africa and the rise of the people from savagery to Christian civilization in one generation was one of the marvels of the world.

The Bible is in constant demand among the many tribes which are rapidly becoming evangelized. It is translated by the Bible Society in 225 African languages and more than 500,000 copies are circulated every year.

For this great work, Mr. Banfield made an earnest appeal for support. "Give Africa the Bible and Africa will eventually make a great contribution to the world's spiritual uplift."

The following officers of the local branch were elected: President, Dan Dippel; Vice-presidents: Rev. C. J. Delburn, Rev. H. J. Wood, Rev. A. J. Mitchell; Sec.-Treas., V. Berscht.

Store Robber Is Sentenced

Pleading guilty to having broken into a store at Didsbury and stealing articles to the value of \$14.45, Ronald Arthur Watson, alias Robert Connolly, was sentenced to one year imprisonment in Ladbroke jail by Judge W. A. Macdonald in district court Tuesday.

Watson was committed to trial on the theft charge by Magistrate Phillips, of Didsbury. In district court he admitted stealing a watch, a quantity of baking chocolate, soap and other merchandise owned by H. Hawkes, merchant.

Barriers To Prosperity

A few short years ago, less than fifteen, in fact, all the principal nations in the world were allied in an effort to smash Germany. They had no other alternative and by an almost superhuman effort they succeeded. Today these same nations are engaged in the task, almost as difficult, of trying to rehabilitate Germany and again place it on its feet and re-establish it as one of the great and prosperous nations of the world.

Why this seeming inconsistency? Following the great wars of the past, the victors were not over-anxious to see the vanquished quickly restored. Following the close of the Franco-Prussian war, and the imposition of a huge indemnity upon France, when it was found that France was paying up much more rapidly and easily than Germany anticipated would be the case, there was a strong movement in Germany to again attack France and crush her before she regained her strength.

Today the situation is entirely different, and we find the statesmen, bankers, industrial and financial leaders of all the great nations striving with might and main to help Germany out of the difficulties into which her disastrous war experience has plunged her. Even the United States, notwithstanding its traditional policy of isolation, and its formerly held belief that it could and should stand aloof from the rest of the world, and that no matter what Europe might do, or how badly it might be afflicted, it was none of Uncle Sam's business and in no wise concerned him—is now just as keen to assist in the recovery of Germany as are the other nations. And all the nations are ready to make sacrifices to help their former enemy.

Again the question—Why? Because, and as one paper says, it's "old stuff" but we are only now coming to believe it, the truth has been driven home that the well-being of our neighbor, no matter whether he lives in the next block or five thousand miles away, is well-nigh as important to us as our own. The interdependence of all individuals, communities and nations is at last being realized and to some extent understood.

Let us quote the financial editor of a well known Canadian paper: "To destroy or cripple Germany, Austria, China, Chile or any other country or countries is to cripple and impoverish ourselves; when the other members of this world community suffer, we cannot escape suffering ourselves. No fence can be built high enough to keep out this suffering. Ten million would-be workers suffer inside the United States' tariff wall. If foreign trade is essential to our own well-being and prosperity; if we would sell our products to the peoples of other countries we must not make it impossible for them to sell their goods to us. Little Johnny who wants to eat his cake and have it too shows no less sense than the creators of the Hawley-Smoot tariff."

The writer is not going to discuss Canada's tariff policy—that is, unfortunately, a partisan political issue, and party politics are rightly excluded from this column—but the larger issue of international trade, and of all tariffs as they affect the ebb and flow of that trade, is a subject which the peoples of all countries will do well to study, discuss and try to understand.

Barriers between nations, and more especially man-made artificial barriers, are an evil, and not what their nature. No one nation by itself can remove such evils; it can only be done by agreement, by international cooperation and action. For example, no one nation can afford to wipe its navy or its army out of existence while other nations remain armed to the teeth, no matter how much it might like to do so. But it can be done by international agreement.

So we have the Washington Conference for the limitation of naval armaments which has already succeeded in reducing to some extent the huge burden of taxation rendered necessary for the creation and maintenance of navies. Very soon a great world conference is to take place with the object of trying to bring about a general reduction in all armaments. The world is beginning to see and appreciate the necessity for these agreements. If they could only agree to wipe out all armaments whether on the land, on the sea, or in the air, all would be the gainers, and all would be on as near an equal footing as they are today.

So too, in the matter of economic warfare on each other. If frontiers, in so far as Customs houses are concerned, were wiped out, the world would be the gainer all round, and one of the dire causes of international friction and jealousy would be removed, and with such removal would also go one of the chief reasons why so many nations feel they must have large armies and huge naval establishments.

It is the burden imposed by these barriers, naval, military, economic, that is crushing the world today, handicapping the efforts of all, causing world depression in business with all its attendant evils of unemployment, with a surplus of products in one country and lack of the necessities of life in another, and as an inescapable result, human suffering, loss and discontent leading to economic and political strife, and ultimately, unless checked and the cause removed, to open rebellion and international war.

'Phone Conversation Recorded

A complete record of long distance telephone conversation may be kept with the aid of a newly invented recording telephone and Telegraph Corp. Scotchmen, 8,843 Irishmen, 2,535 order being installed by the Inter-Continental and 167 Britons but in the instrument consists of a magnetic tape on which the remarks of all parties to the conversation are recorded so they may be reproduced at any time.

The British Army

Latest report from the British Army shows that it is composed of 142,193 Englishmen, 7,538 Welshmen, 14,205 Scotsmen, 8,843 Irishmen, 2,535 order being installed by the Inter-Continental and 167 Britons but in the instrument consists of a magnetic tape on which the remarks of all parties to the conversation are recorded so they may be reproduced at any time.

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes: "I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Inferior In Physique

Physician Claims South Africans May Become Physically Degenerate

A recent statement by Dr. C. Louis Leipoldt, a prominent physician of Cape Town, South Africa, to the effect that South Africans were inferior in physique and stamina to other European races, and citing factors which, in his opinion, might breed a race of degenerates, has aroused a good deal of adverse criticism in the Cape, particularly from leading sporting figures. However, Dr. Leipoldt sticks to his guns. In an interview with the Cape Argus, he says:

"My statement was founded on personal examination of more than 100,000 South African young men and boys and on the published statistics of the examination of more than 200,000 South African school children. I made no statement which has not been perfectly well known to the medical profession, the defence force, and the education departments of the four provinces."

His critics, who pointed to South Africa's eminence in sport, based their conclusions on the prowess of the select few, and in point of fact there were only a few exceptional cases where South Africans were outstanding in the general world of sport, Dr. Leipoldt said. He claimed that his criticism had been constructive. He had dwelt on the effects of malnutrition and the economic conditions of today, factors which were inevitably breeding a race which threatened to become physically degenerate unless they were checked.

Public Building For Ottawa

Construction Of Five Million Dollar Building Is Forecast For Capital

A special despatch from Ottawa, published by the Toronto Globe, forecasts the construction of a \$5,000,000 public building in the Dominion capital as one of the undertakings in connection with the federal unemployment relief scheme. The despatch continues:

In Toronto, Montreal and Vancouver there is projected construction of three armories, which will cost about \$200,000 each. The armories will be built from money voted in the supplementary estimates this year, but the other buildings will come from the new account given to the minister of finance by parliament.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels and will so act upon the system that there will be no recurrence of trouble. The injuries to the organs that worms cause and restore them to soundness.

Marched Across Greenland

Achievements Of Young Britons Matches Those Of Hardest Explorers

Three young Britons, members of the H. G. Watkins expedition, have marched across Greenland on the inland ice from Angmagssalik in the north to Vigvig in the south, matching the achievement of the hardest explorers.

James Scott, Martin Lindsay and Alfred Stephenson, started on July 1 and reached Vigvig on July 30, travelling on skis by night, for the sun softened the ice cap to a point where daylight travelling was dangerous.

Protect the child from the ravages of diphtheria by using Midler's Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Find Old Artesian Well

The artesian well which supplied ancient Pompeii with water has been rediscovered among the ancient ruins. Now plans are under way to re-open the well, lay new pipes, and make the garden fountains of old Pompeii flow once more as they did nearly 1,900 years ago, before Vesuvius destroyed the city.

Large Sum Found In Fruit Jars

Three fruit jars were found by Mrs. Ray Cool on her husband's farm near Lake Village, Ind. Opening them, she was surprised to see \$17.156 in Government bonds. They were turned over to authorities, who began an investigation. They believed the bonds were stolen by bank robbers.

Tourists Visiting Germany

Hamburg-American Line Reports Tourists In Germany Have No Difficulties

Agents may confidently assure their clients that the financial and political situation in Germany does not in any way affect the status of foreign visitors to that country. A number of inquiries received by the German Tourist Information Office, 555 Fifth Avenue, New York, have shown that some travel bureaus have been in doubt as to whether American visitors to Germany have to pay the tax of 100 marks (\$25) which is levied against Germans leaving the Reich, and whether the closing of banks under the rules of the government is causing difficulty in exchanging foreign money into German.

The foreign diplomatic representatives in Berlin after investigating the situation, are advising their countrymen as follows:

The border tax does, of course, not apply to visitors from abroad. It is a measure intended to prevent Germans in Germany from leaving the country just now, which would entail the exchange of German money into foreign currencies, thereby affecting the stability of the German mark. From this fact it is easy to see that there is no possible reason why foreigners who bring money into Germany instead of taking it out, should be included in the measure. Their holdings of foreign money, which they have brought into Germany, are, of course, also entirely unaffected.

Persian Balm creates lovely complexion. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Astringently fragrant. Delightful to use. Softly absorbed by the tissues, imparting that elusive charm as distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discriminating woman should use this flawless aid to beauty.

Example Not So Good

A new system of memory training was being taught in a village school, and the teacher was becoming enthusiastic.

"For instance," he said, "supposing you want to remember the name of a poet—Bobby Burns. Fix in your mind's eye a picture of a policeman in flames. See—Bobby Burns!"

"Yes, I see," said a bright pupil. "But how is any one to know it does not represent Robert Browning?"

Farmer: Hi, there! What are you doing up my cherry tree?" Youngster: "There's a notice down there to keep off the grass."

The sun's effect on tides is less than that of the moon because the sun is so far from the earth.

after PLAYTIME

GIVE them a glass of Borden's Chocolate Malted Milk when they come in from school or play. Children love it, and as many a mother has discovered, it is highly digestive and valuable for building resistance against disease.

Borden's CHOCOLATE MALTED MILK

Asking For Trouble

Colorado Releasing Five Hundred Convicts Under New Law

In releasing half the population of its state prison, all in one bunch, Colorado is asking for trouble.

Scene of the bloodiest riot in prison history, the big house at Canon City is to bid farewell—or "au revoir"—to between 400 and 500 convicts, who have suddenly come under the benefits of the new law which makes it possible, after the sixth year, to serve a year's sentence in 20 days. The Attorney-General of the State has ruled that the law is retroactive, thus affecting approximately half the prisoners.

They will now go forth, many of them to live down the road, but how many more to engage again in crime? Modern prisons, with all their tricks, do not cure the hard-boiled criminal. And a good percentage of the men in this wholesale exodus must be habitual offenders. Colorado has every right to view the prospect with alarm.

A Corrector Of Pulmonary Troubles.

Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory process, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Cattle Shipments

Outfitting a number of additional vessels to carry Canadian cattle to the British market, undertaken by various steamship companies, has made possible a greatly increased movement to Great Britain this year. It is expected that from the present time to the close of navigation 18,000 more head will be shipped, bringing the estimated total for the season to over 27,000 head.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

HUNTER-MARTIN & CO., REGINA, SASK.

Great Strides Have Been Made In Recent Years In Fruit Growing In The Three Prairie Provinces

Canada's prairie West is still known as a new country. This is not surprising, for despite cities and skyscrapers, railways, radio, water power, telephones, electricity, universities, hospitals, churches, opera houses, packing plants, palatial hotels, factories, motor cars, oil wells, grain crops and live stock, it is not likely for some time yet to be known as anything else.

The reason, of course, is that only within a comparatively recent period have these attributes of civilization come to the Canadian prairies, and to discover all the resources and potentialities of so vast a territory as that which lies between the Great Lakes and the Rockies is a matter for years of study and exploration. For example, there is oil. Calgary had its beginning in 1875 in the establishment on its present site beside the Bow River, in the North West Mounted Police fort, but it is only some seven years since the first great well, Royalty No. 4, was brought in in the new famous Turner Valley field 40 miles away, where there are a dozen or more wells with outputs averaging probably that of the Marcellus No. 4, and the production from Turner Valley approximates annually 1,500,000 barrels of gasoline and oil. Royalty No. 4 was the first well of commercial consequence to be drilled in any part of the Canadian West.

Even these figures are dwarfed by the estimated oil content of the so-called "tar sands" of the Athabasca, which have hardly begun to be exploited. Fifty billion barrels according to the calculation of Government engineers and geologists recently made, the largest known deposit of fuel oil in the world and enough at the present rate of consumption to meet its demands for 500 years. But it is land, not oil, that attracts the first settlers to a new country. Their primary concern is to acquire holdings, a quarter-section, homes, to wrest first livings and ultimately competence from their new-titled fertile acres. Capital follows, providing luxuries and conveniences as settlement gains the means of purchasing them and seeking fresh avenues for profitable investment—mines, timber, oil, railways, public utilities. Resources other than the land are uncovered and turned to service in the further development of the country. In time most things of known value have been discovered and utilized and the country is then no longer "young." The Canadian West has not yet reached that stage in its progress.

Time is required even for full acquaintance of what the land itself is capable of producing. Grain and live stock are naturally the first consideration for these two products with the vegetable garden will afford the settler the chief essentials—wholesome and abundant food. Later he will come to consider other possible products that would lend agreeable variety to his bill of fare and among these is fruit. It has often been assumed that fruit cannot be produced on the prairies. The idea is a mistaken one. Almost any pioneer who has settled along the tree and shrubby-bordered lakes and streams could certify that in such localities there is abundantly an abundance of wild fruit. Of this, raspberries, strawberries, gooseberries, black currants, saskatoons, cherries and highbush cranberries are most common. The muskeg territory north of the North Saskatchewan produces good crops of a small leaved cranberry which in the form of wax and preserves is counted of excellent flavor. In the spruce and scrub lands of certain localities immense quantities of succulent blueberries are harvested each year. Sections of Manitoba furnish regular crops of delectable wild red plums.

Pioneer settlers have been content for the most part to make use of these native wild fruits so prodigally provided and domestic production has been generally deferred. But in late years they have been turning to the possibilities in fruit growing on their own lands with gratifying results. The success of Mr. A. P. Stevenson of southern Manitoba, for example, in the production of apples has opened the eyes of others to what may be

accomplished in this field. The Government Experimental Farm at Morden, Manitoba, too, has been growing apple for a number of years and hundreds of boxes from the orchards of Mr. Stevenson and the latter institution have found their way to market.

North of the Athabasca River, at Athabasca—which is 100 miles north of the Alberta capital, Edmonton—Mr. Gaultier has been growing raspberries successfully for a considerable period. In 1920 he had seven acres in canes. He began with a small patch as an experiment and has since increased his acreage until he now has this large area in the fruit. Not that the field is prolific. Mr. Gaultier's method has been to set out fresh ground as the earlier plantings deteriorated. He finds a ready sale at good prices in the town of Athabasca for all the berries he can produce.

The territory about Lesser Slave Lake is peculiarly adapted to the growing of strawberries, which require plenty of moisture. The land in many places is flat and little above water level, so that strawberry culture in that section has proved a remarkable success, and the district has become locally famous for the production of the fruit. Passengers on the trains of the Northern Alberta Railways are able in season to buy luscious fresh strawberries at the little stations and towns along the line and many cases are disposed of immediately over the counters of the departmental stores in Edmonton.

Ten years ago Mr. Herbert Lawrence and his wife started a nursery in the western outskirts of Edmonton overlooking the Saskatchewan. They are now growing successfully plums, crab-apples, currants, cherries, rhubarb of enormous size, and great quantities of asparagus, for which there is a never-failing demand in the city. The plums—of which Mrs. Lawrence last season put up 50 quarts for their own use—are of a dwarf variety, but of exceptional flavor. The main part of their income is derived from the nursery stock—trees, shrubs, flowering plants, rhubarb and asparagus—but they sell each year some \$200 worth of various fruits. No winter protection is given by the Lawrences to any of their stock and little if any is ever watered by the proprietors of Buena Vista Gardens.

A member of the staff of Saskatchewan University in a recent talk to a Saskatoon convention stated that plenty of fine fruit for home consumption, including strawberries, raspberries, currants, cherries, plums and cranberries, might be grown on the farms of the province provided shelter, proper selection of varieties and

methods of planting, care and cultivation were followed. At Lethbridge and Medicine Hat considerable success has attended experiments in apple-growing.

Strawberries, raspberries, currants, black, red and white, native cherries, plums and crab-apples are most to be found in many gardens of Saskatchewan and the other Prairie Provinces, and it is not unreasonable to assume that before many more years they will be growing a large proportion of the fruit consumed in that territory. W. B. Cameron in Agricultural and Industrial Progress in Canada.

Peace River Country

Destined To Become Great Agricultural District, Says English Visitor

The Peace River country is destined to become one of the greatest development agriculturally and commercially which the world has ever known was the statement made by the late Henry Harper and Lady Miss Elizabeth Harper, daughter of Emily Harper, of Banbury, England, during the course of an address to the members of the welfare committee of the Montreal Women's Club recently.

Miss Harper, who is on her fourth visit to Canada, serves in an honorary capacity as councillor of the Society for the Overseas Settlement of British Women. Her visits to the outlying parts of this country are all made at her own expense.

Miss Harper believes that with a short line of railway from the valley of the Peace to the Pacific Coast and the return of normal economic conditions the Peace River country will be the mecca of settlers.

There was a great need, however, for doctors and nurses, she said, and one of the human problems was that of saving the mothers.

In addition to its farming facilities and its great beauty, Miss Harper pointed out that the Peace River district had such a wealth of coal, and oil that its canyon had been called a future Pittsburgh. Future settlers would do well to take less acreage than those who settled the 3,000 family scheme, Miss Harper said. She advocated a maximum loan of \$2,700 being set instead of the former loans, which ranged from \$2,500 to \$5,000. A payment of \$200 to \$400 yearly is required on the latter, she said, and while people are breaking land it is impossible for them to spare these amounts.

Not His Move

He moved all obstacles out of his way to meet her.

He said he would move heaven and earth to marry her.

He so moved her that she consented.

He made the estate-agents move in his search for a house.

Now he won't even move the piano!

Negotiations Are Under Way For A Trade Treaty Between Canada And South Africa

Farmers Should Not Burn Straw Stacks

May Be Required For Feed In Drought Areas

"Without first ascertaining whether they are going to be needed either for shipment to the drought areas or for use on the farms where the feed is grown, straw stacks should not be burned this year," Hon. W. C. Buddie, Minister of Agriculture, declared recently.

Referring to the general situation, the Minister said: "It may prove necessary to ship horses into districts where there is a surplus of feed in order that they may winter at a small cost to their owners and be shipped back in the spring. Under climatic conditions such as obtain in western Canada, it is good business to carry over a surplus of fodder from year to year and the experience of the last three years should teach us to be careful about burning up fodder which may prove to be very useful before another crop is harvested."

Under the government-assisted scheme of moving cattle from dry areas where fodder shortage exists to districts where pasturage is available, a total of 157 carloads had been moved to August 12, the Minister stated. Approximately 2,000 head of cattle, 1,500 horses and 500 sheep had been moved to pasturage at that date.

Eskimos In Good Condition

Word Brought From Baffin Land By Hudson's Bay Factor

Eskimos in Baffin Land are all in good condition with plenty of game and fish for their subsistence, stated Ralph Jardine, Nelson's Bay Company Factor at Amudluk, South Baffin Land, who was a recent visitor in The Pas.

Mr. Jardine, whose home is in St. John's, Newfoundland, is on his way out for an extended vacation after spending the past three years on duty at Amudluk. He boarded the Hudson's Bay steamer "Unwin" when it called at the post in the course of its annual tour with supplies for posts on the northern rim of Canada, disembarked at Churchill and there took the train for The Pas.

Worked Both Ways

Hubby found some holes in his stockings.

"You haven't mended these?" he said to his wife.

"Did you buy that coat you promised me?" she asked.

"No-no."

"Well, if you don't give a wrap, I don't give a darn."

SIR ALAN TRIES OUT POSSIBILITIES OF GIANT SEAPLANE

Sir Alan Cobham, one of England's greatest aviators, who is credited with having done more to systematize commercial passenger air services than any other aviator, has just left England on a 7,000-mile flight to Africa, to try out the possibilities of the biggest float seaplane in the world as a commercial long-distance passenger plane. The main picture above shows the giant Short "Valka" seaplane, weighing ten tons, receiving its last overhauling before commencing the long grind. Inset shows Sir Alan Cobham (extreme right), with some of the people responsible for the design and construction of the machine.

Negotiations are under way for a trade treaty between Canada and South Africa, while the friendliest relations are being maintained with New Zealand, with the expectation that they will lead to a mutually satisfactory agreement, Hon. H. H. Stevens, Minister of Trade and Commerce, stated recently.

He expressed the opinion that while high wheat prices were not likely within the next few years, it was probable that in eight or ten months there would be a material recovery in prices.

"After studying with the utmost care for the past year and a half the progress of Russia, which in some respects is spectacular," Mr. Stevens said, "I am convinced that the normal laws of trade and principles of supply and demand will exercise a control over the Russian system of trade experiment, and that the apprehension that existed a year ago as to the formidable character of Russian competition is greatly lessened."

Turning to wheat, the minister expressed the opinion that increased prices for grain would come in the present time.

"The wheat situation at a short time is indeed depressing," he commented, "but the abnormal production of the past one or two years has been substantially over-taken, and while there is still an abundance of wheat in the elevators, the visible supplies are little more than those essential for a normal balance of safety. While it is unlikely that we will see high prices for wheat in the next few years, it is probable that in eight or ten months there will be a material recovery in wheat prices. In the meantime there must be an adjustment of living conditions. Many farmers are taking up cattle raising and engaging in other branches of agriculture as well, with benefit to themselves and the industry as a whole."

Turning to unemployment, Mr. Stevens remarked that "while undoubtedly the matter is one of considerable seriousness, I am inclined to the view that undue contemplation of the problem has given it a magnitude beyond what it is in reality."

"The plan upon which we are working in conjunction with the provinces, in dealing with unemployment, is for the providing for every man honestly willing to do a fair share of toil, food, shelter and a reasonable wage. This does not mean that individuals will be able to pick and choose jobs to their liking, for we are honestly trying to meet a situation in the best interests of everyone concerned. In our program it should be remembered that what the governments are doing is to provide relief—not permanent employment."

"We are planning to prepare Canada for the earliest possible recovery from this period of depression."

"There is no question in my mind that Canada has an exceptionally bright future," he said. "This opinion is not based on empty optimism, but upon very sound economic factors. We are making very substantial progress in shaping permanent trade connections. The aim of the government is to build up an external trade on sound foundations, with an eye on future developments and expansion. The Australian treaty indicates the line that we propose to follow with a view to extending our inter-empire trade. In addition, Canada's geographic position to which must be added the gradual but definite improvement of conditions in the Orient, offers to Canadians an opportunity unexcelled by those enjoyed by any other people."

Hunter "Why are you following me with that bottle of oil?" Travasso "Well, you will see what I try what you catch." Il Travasso, Rome.

Forty Years Since

C. & E. Was Built

It was just forty years ago that the Calgary and Edmonton Railway, long since incorporated in the C.P.R. system, was opened. In recalling the first trip that was made over it by a party with Lord Mount Stephen at its head, the Calgary Albertan says that "they travelled special coach along the rough trackway to Edmonton and returned after a day's visit to the capital." But there could not have been anyone at that time who thought of the little settlement on the north bank of the Saskatchewan as at all likely to be a provincial seat of government. Indeed there were some who thought that it was certain to lose ground with the coming railway, as a new town was being established across the terminus on the opposite side of the river.

These fears were, however, not realized, thanks largely to the civil loyalty that had grown up in the original community and the determination of its citizens to have it survive and expand. The rivalry between Edmonton and Strathcona are a stirring part of our early history. Fortunately they have since been forgotten for many years. The speed with which they vanished after the amalgamation of the two municipalities was astonishing to all who remembered how keen and even bitter they once were. With all the foresight that Lord Mount Stephen and some of his travelling companions in September, 1900 possessed they could hardly have visualized the rate of our development, or the course that it would take.—E.S.

Reduction In Express Charges Announced

To meet competition from automobile trucking companies, drastic rate cuts in many classes of shipments are being made by the Canadian express companies.

On specific commodities, rates are reduced on shipments over 100 lbs. in most cases. In the general merchandise class, rates are being made covering shipments of less than 100 lbs. Especially in agricultural produce, grown and packed in Canada are rate cuts being made. In some cases rates have been lowered 33 1/3 per cent.

Wheat Acreage Drops.

Decrease in the 1931 wheat acreage in the Argentine and Australia and a prospective drop in the winter acreage in the United States provide a basis for general improvement in the wheat situation, according to a review issued by the Dominion bureau of statistics Friday last.

The reduction in Argentina, Australia and the United States is estimated at 12,500,000 acres and it is possible that the equivalent of the entire acreage expansion that took place from 1926 to 1930 in the four leading exporting countries will be eliminated during the next twelve months.

LOCAL & GENERAL

River Evans and George Hawkes left Monday for Edmonton where they will enter the University of Alberta.

Now ready—Sealed bids at the Pioneer Office, 2 for 5 cents. Just handy for the telephone, store and school.

"Slippery" at the Opera House on Monday next. Featuring Junior Corns. Thursday next: John Burroughs in "Swingtail."

Saturday night dances will be resumed again in the Olds Elks' Hall, commencing September 25th. A new orchestra.

A potato weighing 2 lbs. 9 ozs. is being exhibited at Hawkes Store. The potato was grown by Holmquist Bros., west of town.

A missionary rally will be held in Knox United Church, Friday, Oct. 2nd when Rev. Mr. Prior, of Angora, West Africa will give the address.

Mr. J. Keith, of Hardrock, N.B. arrived Monday to visit with his son and daughter, Mr. Ward Keith and Mrs. H. Hawkes. It is likely Mr. Keith will spend the winter here.

We notice that Ianisfall have had their meeting to arrange for hockey activities this week. The local boys have done quite a little talking in the street, but don't seem to be able to get down to business.

"City Streets" at the Opera House on Monday (Thursday). Absolutely thrilling with thrills. See the inside of things you've been reading about in the papers.

A. Moraschi had a narrow escape on Monday when his team ran away. He was thrown off and escaped serious injury, but the team was badly cut in the wire fence.

A General Hospital for sick, Watchers, Clerks, Photographers, Sewing Machines, Etc., Etc., 1st front corner of Club Lanch. All work guaranteed.—Advt.

Sunday morning, September 27th at 10:30 at Zion Evangelical Church, the sermon theme will be: "The Place of Prayer in a Real Revival" and in the evening at 7:30: "The Poverty of Jesus."

George Hawkes and Frank Mow, return last Wednesday from their spending trip to the mountains west of here. They were successful in bagging a mountain sheep and two ewes.

The first quarterly meeting of the Didsbury branch of the Royal Canadian Mounted Police was held at the church on Monday evening. Rev. W. W. Young, of Regina was presiding officer.

The regular monthly meeting of the Canadian Legion will be held in the Goldfields Hall on Saturday evening. All members are specially requested to be present, as the nomination of officers for the coming year will be held during the evening.

Some person of a peculiar mental streak has been at work the last two or three days putting out poison for dogs and as a result several dogs have died. It has been reported to us that a picture directed in a certain quarter and that the police are investigating the matter.

The annual Rally Day service will be held in Knox United Church on Sunday morning, September 27th at 11:00 a.m. A special program has been prepared by the children and Mr. J. Burman, Sunday School superintendent will be in charge. Everybody is heartily invited.

One-stage high school student in Alberta has increased from 7,500 in 1922 to 11,750 in 1929 and in the latter year the peak was third in the Dominion, being surpassed only by British Columbia and Ontario, a record edition of the A.T.A. magazine states. Alberta passed Manitoba in 1924 and Nova Scotia in 1927.

Special provision is being made by the Dominion government to pay a visit home in the Peace River block of British Columbia. This will mean \$25,000 to the farmer of that area, as it is expected they will save a crop that will equal the \$25,000 bushels shipped for season in elevators at Dawson Creek and Peace Camp.

A Real Opportunity!

100 acres improved farm land located 4 miles from Carstairs 100 acres under cultivation. All can be broken. Good buildings, all fenced and cross fenced. Price: \$23,000.00. Terms: \$500.00 cash, balance on one half crop payments, ten years to pay with interest at 6 per cent. If you are in the market for land do not pass this up.

"What's Happened
to The Light?"

We never miss the water until the well runs dry.
A faithful lamp, doing duty for many months in cellar or hall, goes up the ghost. You flip the switch and when nothing results, involuntarily exclaim, "What's happened to the light?"
Suppose, however, that the trouble comes faster than the lamp—that a flood wipes out the power station, or a severe storm blows them?

Is industry crippled for lack of electrical service? Are the doors of mercantile establishments locked? Are streets left in darkness?

Interconnection, the linking of one system with another, is for just such emergencies. Immediately power is made available, interconnection means the restoration of service against interruption.

It is just like having two or even three wells to draw from.

The Calgary Power Company representative in your territory can promise for you any kind of electrical equipment. He will tell you about the attractive terms upon which you can purchase many electrical appliances—with a small cash payment and the balance on your monthly light bills.

EDMONTON

CALGARY

SHE WORRIED ABOUT HER WEIGHT

"I started taking Kruschen Salts a month ago. I have lost 5 pounds in weight, and I feel as if I have lost 20 lbs. I am full of vigor, whereas before I was worried about my condition, as I was getting so fat that I could not do anything. But I am thankful to say that my troubles doubled, they would not worry me now. I thank Kruschen."—Miss V. P.

Here's the recipe that banishes fat—take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning, for it's the daily dose that takes off the fat. Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, kidneys and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

WORLD HAPPENINGS BRIEFLY TOLD

More than 20,000 bicycles were manufactured in Canada during the year 1930.

Establishment of an experimental farm near Fort William is planned by the Ontario Department of Agriculture.

After years of private ownership one of Britain's most beautiful parks, the Royal Botanical Gardens, is to become public property.

General Cyrano Cyprien Gillian, head of the Belgian headquarters staff of the Yser during the world war, is dead, aged 74.

Four bushels of oats were "swept" by a farmer at Tiffin, Ohio, for a shave and haircut, worth 75 cents. The farmer still owes the barber three cents.

Seven new aeroplanes built in Russia with funds obtained by public subscription are to be added to the Soviet Air Force, the war commissariat has announced.

The autumn manoeuvres of the Austrian army have been cancelled for this year in the interest of economy. It was announced in an official communiqué issued recently.

F. C. Hall, backer of the Post-Gazette record flight around the globe, says he is studying navigation and plans to fly the Pacific westward next year. A pilot, Hall said, has not been selected.

Fifty-five million acres had been sown to spring wheat in Russia up to June 1, according to reports received by the British Ministry of Agriculture. Operations are reported to be backward in Siberia.

James Burns, 27, of Valdes, a suburb of Montreal, better known as Jimmy Britt, one-time flyweight boxing champion of Canada, was killed on the Quebec highway near the capital, when his automobile swerved from the road and turned over in a ditch.

Figures received in Saskatchewan from an authoritative source, indicate that the official 1931 census return will give the city's population an about 42,000, an increase of 67 per cent over the 1921 census, and 38 per cent over the total given in the province census of 1926.

New Experimental Farm

Establishment of an experimental farm near Fort William is planned by the provincial department of agriculture.

"I am going to suggest that we have a statue in this park, for instance, a statue of love."

"In that case we need only put a seat."—Pages Gates, Yverdon.

Cancer Research

Commission Finds That Important Progress Has Been Made

"We found that the best results in cancer treatment were being obtained where surgical, X-ray and radium treatment were being combined, and we also found that remarkable steps have been made in cancer research," said Dr. W. T. Connell, who has just returned from Europe, where he was studying the cancer question with the Ontario cancer commission, appointed by the government of Ontario. A comprehensive survey of the cancer question and the treatments being used was made by the commission in both the United States and Europe.

"What the commission saw is most encouraging," said Dr. Connell. "We found from our investigations that where an organized movement was made to secure for the patient the three methods of treatment, surgical, X-ray and radium, the best results were secured, and the highest percentage of recoveries was recorded."

By Annette

TAILORED CHITON FRACK MAKES IT DEBIT

It has the straight slim lines that most women of average figure have proved by experience become their. The shawl collar is another slimming point. And it's so smart and dainty made of satise, sheer linen or organdy. And it may be of has binding brought by the yard all ready to attach in the neckwear departments. However, the pattern provides for same, for some may prefer to have the collar made of self-fabric.

Neat blue cotton with dots in white with a dash of green is medium styled. The belt is blue grosgrain ribbon, and the collar crisp white or pink. It's a splendid dress for town or for travel.

Size 36 requires 3 1/2 yards 39-inch, with 3/4 yard 29-inch contrasting, and 1/2 yard ribbon.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Conceit and Bad Driving

Consideration For Rights Of Others More Important Than Keen Intelligence

Conceit is no crime, but it may have criminal consequences if a too complacent person takes the wheel of an automobile. This is the conclusion of Dr. Paul Schroder, state criminologist of Illinois. At a recent meeting of the Mid-West Safety Congress he asserted that conceited persons made bad automobile drivers, often acquiring records as "repeaters" in motor accidents.

His theory is that consideration for the rights of others on the highway is a more important factor in safe driving than keen intelligence. A kindly motorist is apt to be a safer driver than the puffed-up individual who goes his own self-centred way, letting others look out for themselves.

A study of drivers who have landed in the Illinois state penitentiary on manslaughter charges revealed that most of them were not "handicapped mentally by low intelligence or physically by being crippled." Their prevailing defect was a tendency to be conceited and disregard the rights of others.

The commissioner of motor vehicles in Connecticut has already introduced a questionnaire for applicants for licenses, designed to show their character, intelligence and judgment. Perhaps he will now add questions to indicate whether or not they are conceited. The day may come when an "only child" or the "baby of the family" may be unable to secure a driver's license until he has brought character witnesses to testify that he is modest, unselfish and duly considerate of others.

Ways Of Englishmen

Country Estate and the Outdoor Life Has Strong Appeal

London's census figures, just completed, show that city to have a population of 8,292,518, as compared with New York's 6,981,517. This announcement, whatever despair it may cause in New York, will hardly cause a ripple in London, we imagine. For the truth is that Londoners differ strangely from most Americans in that they take very little pride in the size of their city. Most of them, if they were asked, would probably be able to give only the roughest approximation of its numbers.

Americans delight in the bigness of their towns, and most young Americans, at least, hope some day to go to New York and be a part of that bigness. Few Englishmen cherish a like ambition. Town, to a Britisher, is an unfortunate necessity. His heart is in the country.

Living on his own acres is still the goal life to the average Englishman. The very richest of them keep houses in town, to be sure, but they are occupied only for a month or two in the summer. As soon as the "season" is over, they are closed up and their owners go back to their hunting, their shooting and their outdoor life.

Englishmen who are not so well off, who are forced by their business to go to town, live, as far as they can, in the suburbs around London. As soon as possible they desert their office, rush by train or automobile to their villas, and their gardens, pretending that they, too, are country gentlemen. Baltimore Sun.

To Launch Jewish Organization

Formation of a National party is planned by Jewish organizations in Canada. An effort to blend Jewish social and political organizations into a party of national scope and influence will be launched at a mass meeting in Toronto this fall. Delegates from organizations in Montreal, Ottawa, Winnipeg and other Canadian cities are expected to attend.

Husband: "Confound it, you know trade is bad and money scarce and yet you bring home more mouths to feed."—From Passing Show, London.

Educational Films

Talkies Introduced To Students At Summer School

The "canned professor" has been introduced to the students of the summer school of Washington University in St. Louis. In a darkened hall, he appeared on the screen. With him were the charts used in his lecture. He pointed to them as he talked. Here was an educational talk in literal sense. Given the "canned professor," the syndicated professor may follow. One man may appear simultaneously at 1,000 summer schools. The possibilities are limitless. For example, with the chain grocery store we may yet have the chain college, "canned professors" appearing on the silver sheet as they appeared before the camera at the central lecture room of the chain—Boston Transcript.

Grower Receives Bounty

Tenant Farmer Will Receive The Full Five Cent Bonus

Farmers who grow wheat on land leased on a crop share basis will receive the Federal five-cent-bushel bonus on wheat in exactly the same manner as actual owner-producers. Promise of this was contained in a letter received at Saskatoon by Dr. William Allen, of the farm management department at the university, from Hon. Robert Weir, Minister of Agriculture. The Federal Minister of Agriculture was answering a query as to whether the tenant farmer would receive the full five cents or only a part of the bounty, with a share going towards the owner of the land. He said the government intended to make certain the actual grower received the bounty.

Takes Up Chinese Singing

Chinese opera singing is the latest hobby of China's deposed emperor. The "Son of Heaven" has engaged a voice teacher from Peking, purchased Chinese musical instruments and stage trappings, and is practising the strange Oriental scales which Mei Landang has used with such skill that his fame has become world-wide.

Old Resident Dead

Winnipeg's oldest resident, Mrs. Mary Roberts, 94, is dead. She had lived there for 87 years, going to Old Fort Garry when she said there were "hardly any white people there—just Indians and the Hudson's Bay folks." She was the mother of 13 children, one of whom fought in the Red River rebellion.

The ADVENTURES OF CAPTAIN JIMMY and his Dog SCOTTY

CHAPTER XXVIII

On the day that Nick arrived in Bakersville, John Maxwell was at the train to meet him; yet the first familiar face Nick saw was that of old Sam Tod, the baggage man, who had known him since childhood, and who gripped his hand with a hearty "Glad to see you back, boy. Thought for a while you was in a watery grave."

"Not yet," said Nick, and laughed; but even as he turned to meet John Maxwell's welcoming smile, it struck him as strange that old Tod had not joined in the laugh. Tod was a proverbial joker, but there was something unusual in his eyes today: a look that seemed not wholly glad for Nick, but—sorry; and the same quality was in John Maxwell's smile. It was distinct, by a smile with reservations—the sort of smile that sometimes precedes the telling of bad news. It brought a chill to Nick's heart—dimmed the sunshine—filled him with foreboding; yet he did not speak till he was in the Maxwell automobile. Then he went straight to the point.

"What's wrong, Mr. Maxwell?" John Maxwell started. The question was plainly unexpected.

"Why—nothing, my boy; nothing that isn't going to come out all right—I know it will come right now you've got back. You see—"

"Don't beat about the bush, sir. Has something happened to Gay?"

"No—no! That is—well, you have a little daughter, Nick—born too soon, but Bennett says she'll come along finely. We're not worrying about her; but Gay—she's been under a terrible strain, and when the message came—we don't know how because it wasn't opened, but she got the idea that the news was bad. She fainted. When she came to she was delirious. She's been so ever since."

"Nick's face grew slowly white. 'You don't mean—you're not trying to tell me that—that she's lost her mind?'"

"No, we don't say that. She knows the children Dr. Bennett took them in yesterday to test her. But she babbles on continually about you. She evidently kept things to herself too much on the baby's account, and is paying for it now. She's had horrible visions of what was happening to you. They haunt her. When we tell her you're safe—well, it's pitiful. She thinks we're deceiving her, and begs us not to. Bennett was going to meet you and explain it all better than I can; but he was called on an emergency case and had to go. You're our one big hope, Nick. The sight of you may blow away the cobwebs, if—"

"If she knows you?"

"You mean—she may not know me?"

W. N. U. 1908

John Maxwell's hand closed on Nick's and gripped it hard.

"There's that possibility, of course; but she knew the children. Buck up, boy. I'm sure she'll know you! She loves you so dearly. Nick. How can she help—"

He took out a handkerchief and blew his nose. Nick said, his voice husky: "Where are the kiddies?"

"Mary's got 'em. Had 'em ever since Gay was taken sick. Janey's at your house, doing the cooking. That girl Sim Bartlett hired is laid up, just when they need her most. Julie Nipps is helping out, too. Mary's been keeping little Martha daylilies, so she'd be free. We'd have had the boys here to welcome you, but we didn't want them to hear about your mother. You see, Nick, Gay's tried so hard to keep them happy—not to let them guess that you might not be coming back at all, that we felt we mustn't undo her work. They're happy as the day is long, and proud as Punch of their little sister. If they'd an idea you were here today wild horses couldn't have kept them away from the train. Here we are. There's old Bartlett. He's been a wonder."

As Nick walked up the wide, brick path beside John Maxwell, he felt dazed, and unsteady on his feet. It was all so hideously different from what he'd planned. Uncle Sam, an obviously aged Uncle Sam, but with some kindly light in his blue eyes, gripped his hand, patted his shoulder, and said, knowing it was the one thing Nick would care to hear:

"She's sleazeb, boy. Havin' a real good nap. The doctor just called up and said you was to go in and see her. He'll tell her she's wakened. He thinks maybe the sight of you after a good sleep, will be just what she needs. The baby's girl, Nick. Gay'll be real happy when she knows it. Now" (the old man's voice trembled, "now she don't seem right to understand—"

Nick dropped his suitcase and sat down on the arm of a porch chair. He felt vaguely, that he couldn't stand this thrash burned.

"Could—could I have a drink of water?"

"I'll get it."

Janey Maxwell had spoken. She returned in a moment with an ice-cold drink, and laid an affectionate hand on Nick's arm.

"Don't worry too much, Nick. She'll be all right now you've got home. I just know it. She's been so wonderfully brave that she couldn't stand it a minute longer; but everything will be all right now."

"You always were an optimist," said Nick. He tried to smile, but the attempt was painful. "May I go up now, Janey?"

She nodded, and led the way. As they reached the threshold of the familiar room, Nick paused, breathing deeply. The shades were lowered and for a moment he could not see, but he knew that a nurse who had been seated by the bed, arose, and with a whispered word to Janey, went downstairs. Dr. Bennett had given her his orders.

Nick felt curiously dazed and numb. Janey saw it, and slipping a kind hand in his, drew him toward a chair beside the bed.

He was alone then—alone with Gay. He leaned closer, though his eyes had already become accustomed to the dimness. She lay on her side, facing him, her breast rising and falling gently as she slept. There was a soft little curl lying against her forehead. Nick remembered seeing it the day he went away—that raw, cold day that seemed a century ago.

"Dearest!" he said.

Not to save his soul could he have kept back the word. Gay moved, turned her head a little, and threw out a slender arm. She did not waken, but the outstretched hand seemed an unconscious welcome, and Nick took it tenderly in his. She did not stir. He pressed his lips against it, feeling the roughened fingertips that told a story of homely tasks done lovingly for those she loved.

Love! How unstinting had she been of it, he thought—how generous and understanding when the line of the road had made him an uneasy housemate. Freedom! It seemed incredible that he had ever chafed for it, having Gay. It came to him dully as he looked down upon her, that unless she knew him when she wakened, there would be no freedom for him, ever again.

But she would know him! Surely he could find some way to prove himself. Of course she would know him! Hope

stirred within his heart as he sat there watching her quiet breathing. A clock in the room below chimed faintly. The scent of some blossoming shrub came through the open window. The curtain stirred in the breeze. A paper fluttered to the floor; and at its sound Gay moved.

Slowly her eyes opened, and meeting them, Nick's heart contracted in sudden fear. They were Gay's eyes of course—Gay's beautiful eyes; and yet—something was gone.

For a moment no words would come; then "Gay," he said gently, "darling . . ."

She covered the eyes quickly with her hands.

"Why do you speak?" she pleaded. "You have come before, but you have never spoken. Don't speak. It is only cruel. You see—I mustn't cry until my baby comes; and when I see you—you are so like Nick—I—I can't keep back the tears."

Who did she think he was? It was unbelievable! For a moment the room went black; but Nick came up fighting. She should know him! He would not let her suffer such agony of spirit. There was some way . . . Surely he would find the way. . . .

He reached for the hands that were covering those strange, unnatural eyes, and held them fast.

"You have been dreaming, dearest," he said quietly, and wondered that his voice should be so steady. "You have been dreaming a long, long time; but now you are waking. It was only a nightmare, Gay. I have come home to you. I am safe. Now do you understand?"

She looked at him, pitifully confused.

"Have I been sick?"

He was stroking her arm gently, the way she loved.

"You have been very sick. Our little girl was born. Don't you remember? But it's all right now, dear. Everything's all right now!"

A sob trembled on her lips. Her eyes filled. She seemed to be looking beyond him, out of the window and into the branches of the maple. He was forgotten.

"A little girl? Nick wanted a little girl; but she has come—too late."

Despair flooded Nick's heart. She looked so frail—almost unrecognizable—and those eyes—they were not Gay's eyes. . . .

"Dear, don't you believe me?—Don't you know me?" he pleaded desperately.

She tried to smile, as if not to hurt him.

(To Be Continued.)

No More Asthma. Dr. J. D. Kellogg's Asthma Remedy sounds the death knell of this trying trouble. It stops the awful choking and painful breathing. It guards against night attacks and gives renewed ability to sleep and rest the whole night long. Much is claimed for this remedy, but nothing but what can be demonstrated by a trial. If you suffer from asthma try it and convince yourself of its great value.

What She Needed
A neighbour called on Mrs. C. only to find Mr. C. warming himself by the kitchen stove while Mrs. C. was out getting in the cows.
"You see," he explained, "we was both sawing wood when I noticed the cows had got away and I let Mary go after them. I thought a brisk walk in the cold air might do her good. She seemed to be getting kinda white and peaked at the wood sawing."

A York, S. C., dairyman says his cows give more milk when milled to a banjo accompaniment. But we understand it requires years of practice to play a banjo while milking a cow.

**CORNS
LIFT OFF—**

**Pain
Stops!**

An amazing remedy—acts in a few seconds. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yet it is just what just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from any druggist for 25c.

**ENOS
FRUIT SALT**

**Doctors Warn
Against
Drastic
Purgatives**

Physicians know the danger of using cheap cathartics that create a harsh, unnatural intestinal activity. They know that ENOS "Fruit Salt" is more than a laxative. It is a delicious health beverage that sweetens and tones up the entire system—and that its daily use—just a dash in a glass of water, every morning—is an aid to vigorous good health.

Age Of Electricity

Predicted That Next Fifty Years Will Witness Great Development

Claiming that the world had not yet properly adjusted itself to the ideals and needs of the new machine age, C. E. Skinner, East Pittsburgh, president of the American Institute of Electrical Engineers, and assistant director of engineering of the Westinghouse Electric and Manufacturing Company, spoke before the Saskatchewan branch of the institute. Mr. Skinner is on his first official visit to Canada.

Norman Bubalos, vice-president of the Saskatchewan branch, who presided, welcomed Mr. Skinner on behalf of the branch, and Hon. J. A. Merkley, Minister of Labor and Industries, welcomed him on behalf of the provincial government.

The institute, said Mr. Skinner, faced a difficult year. The electrical industry was little more than half a century old, yet in those 50 years it had accomplished more and wrought more changes than any other discovery had in 1,000 years. The coming fifty years would see even more changes in which electricity would play a prominent part.

THE RHYMING OPTIMIST

By Aline Michaelis

IN ABSENCE

As a rosbud dreams of sunlight,
As a lark desires the dawn,
So do my fond thoughts linger
With you, who now are gone.

Each trick of look or laughter
That made the hours gay,
Comes back like drifting perfume
The while you are away.

In days when I went clashing
Your hand within my own
The thought of you was not more
Near

Than now, that you have flown.
But with the morn returning
The lark will sing anew,
And I will thrill to music on
The day that brings me you!

Women Homesteaders

331 Alberta Women Filed On Homesteads In July

Homestead entries were made by 331 women of Alberta during the month of July with the coming into effect of new legislation allowing women to file on land.

During the month a total of 1,114 homestead entries were filed, a large proportion of which were farmers from southern Alberta drought areas, re-locating in the south. Nearly one-half of the women who filed on land were unmarried.

Know This Fact
"Children's Bureau," should not be taught to be little misers. A savings bank into which pennies disappear never to be used has relatively little training value.

In other words, there is a time to feed Dunny—and a time to shake him. Little financiers do not need adult guidance; but the Children's Bureau is mistaken if it thinks they haven't found out that Dunny Bank works both ways.

Little Helps For This Week

"Perfect love casteth out fear."—1 John iv. 18.

Ah, soul! look upwards trusting, kiss the rod.
And know there is no might have been with God.

From Him, whenever lowly we draw near,
We learn of love that casteth out all fear.

We find a faith that in oblivion's sea,
Whims every dream and doubt eternally.

To love our neighbour is a great help to that perfect love of God which casteth out all fear. Nothing but the love of God will make you love your neighbours aright; and the Spirit of God, which alone gives weight for any good, will by these loves—which are life—strengthen you at last to believe in the light, even in the midst of darkness.—George MacDonald.

Soft corns and warts are ugly, painful and irritating. Remove them quickly and surely with Douglas' Egyptian Liniment.

Discover New Islands

Soviet Icebreaker Finds Unrecorded Islands In Far North

Despatches from the Soviet icebreaker "Malgin," reported the discovery August 7 of four hitherto unrecorded islands in the far north region of the Franz Josef Archipelago.

Southwest of Karl Alexander Island the exploring vessel charted three unknown islands at 81.12 north latitude, 30.55 east longitude. The fourth is described as a small, hilly bit of land in the Straits of Baxa. They will be formally claimed in the name of Soviet Russia by the near future by the Arctic Institute, which will name them.

Neighbor Suggested Compound

**"It took away
the Pain"**

"I HAVE been married for ten years. I had one child who would be seven years old now if he had lived."

"My husband and I are both very fond of children. A neighbor told me about Lydia E. Pinkham's Vegetable Compound and I was braving it for about two months."

"It took away the pain I used to suffer and I am getting well and strong."

This medicine is helping Mrs. Kenneth Cooper of 9 Dawson St., Halifax, Nova Scotia. It will help you too. Won't you buy a bottle?

Prize-Winning Apprentices

Considerable interest has been aroused by the performance of four young apprentices at the Canadian Pacific Railway's Angus Shops, Montreal, who captured three first prizes and one second, between them, at the Canadian National Exhibition, Toronto, 1931, in the exhibit of mechanical drawings and designs. The quartette are pupils of Charles Bailey, instructor of apprentices and John Burns, works manager.

Picture shows, left to right: C. R. Biddle, 23, machinist apprentice since 1928, who took first prize in the Electrical Section, was a first attempt.

A. W. Faulconbridge, 23, joined as apprentice in 1925, took first prize in the Structural Section and second in the Steam Section in 1931 and first in Internal Combustion and third in Steam in 1930. In 1929, he was first in Steam and second in Structural.

Philippe Loyd, 22, joined as apprentice in 1925 and became an apprentice in 1925, took first prize in Internal Combustion, had a second in Structural in 1930 and second in Hydraulic in 1929.

M. P. Egan, 19, machinist apprentice since 1929, captured first prize in the Electrical Section, as a first attempt.

Mountain View Notes

A successful baby clinic was held at Community Hall Wednesday last.

Mr. and Mrs. J. Bussey, of Calgary were visitors in the district over the weekend.

Several threshing gangs are hard at work threshing the grain that was cut ere the disastrous hail hit the district. The weather is very un-harvestlike at present.

The church service at Community Hall was conducted by Rev. Hartley of Three Hills. Mr. Warren, the student-in-charge returns to Toronto next week to attend the fall session at Victoria College.

The monthly meeting of the W.I. was held Thursday last in Community Hall. After a short business session the members divided into groups and had a very enjoyable time quilt-making. The vice-president, Mrs. Blain had one quilt well ahead, so that many were able to sit around the quilting frames and sew as well as chat merrily. The pleasant afternoon ended in a very sumptuous lunch, this being served by Misses Le Clair and Mrs. Finley. Misses Barnes, Finley and J. Wilson played and sang during the tea hour.

Melvin Notes

Mr. and Mrs. Claybolt spent Sunday with Mr. and Mrs. A. Krebs.

We are pleased to say Mr. Leeson is improving, but not yet able to use his limb much.

Congratulations to Mr. and Mrs. Janzen, a baby boy has come to stay at their home.

Word has been received from Mr. W. N. White that his mother passed away before he arrived at her home. Sympathy is extended to the family.

Don't forget the Go-Getters dance in Mr. A. Krebs' new barn Friday evening, September 25th. Sunny-slope music.

Mr. Leeson's sister, Mrs. Armon and her husband from Bisswood, Manitoba, spent a few days with Mr. and Mrs. Leeson this week.

We are sorry to lose Mr. Edgar Wiggins from our district, but hope to see him often. He has gone to Camrose to attend Normal school. We wish you all success, Edgar!

Sympathy is extended to the Swingle family in their bereavement. Their mother who was nearly ninety passed away at the home of her daughter, Mrs. R. Honey last Sunday. For nearly four years she had been confined to her bed. Mrs. Swingle was another old-timer of Didsbury district. Her funeral was held at Westerdale church on Tuesday afternoon.

For Rent—Five roomed house on east side of town. Newly decorated. Apply: A. A. PERKIN

Local News

Mrs. Fred Diehl who has been visiting her sister, Mrs. H. M. Reiber, left for Calgary on Wednesday.

Word has been received that Mr. J. W. Roppel, brother of Rev. H. E. Roppel, died at Port Elgin, Ont. on September 11th.

An illustrated lecture on Japan will be given in Knox United Church Tuesday, September 29th at 8 p.m. The "Pied Piper of Hamelyn" will also be illustrated. A collection will be taken to defray expenses.

Harvest Festival at St. Cyprian's Anglican Church, Sunday evening at 7.30. Donations of fruit, flowers, vegetables, etc. for decorating the church will be thankfully received on Saturday evening.

An interesting event took place at the home of Mr. and Mrs. J. Russell on Sunday evening when the baby girl of Mr. and Mrs. Allan, of Cochrane was baptised by Rev. A. J. Mitchell. Only the near relatives were present.

RUGBY NOTES

A most successful baby clinic was held under the auspices of Rugby W.I. on September 17th at the home of Mrs. A. Wahl. Twenty-six children were examined. Many thanks are due to our hostess for her kindness in lending her home for the occasion and for her hospitality in serving so delectable a lunch to those who attended.

Grain cutting is practically finished in Rugby district. If only the sun would be a little more amiable and show his face again, the hum of the threshing machine would soon be heard in our midst.

Marine history was made when members of the British Royal Academy were commissioned to decorate the interior of the Empress of Britain, 42,500 ton giant of the Canadian Pacific Atlantic fleet, which will make her maiden voyage from England to Quebec in May next. Sir John Lavery, Sir Charles Allom, Frank Brangwyn, W. Heath Robinson and Edmund Dulac were some of the artists.

Addressing the combined Board of Trade and Empire Clubs of Toronto recently, E. W. Healy, chairman and president of the Canadian Pacific Railway, pointed out that the total tax bill of his railway from incorporation to 1929 had been \$105,813,944, while the total value of the original Government contribution to the railway in cash, land and completed sections had been \$51,118,527.

The Strathmore Supply Farm, operated by the Canadian Pacific Railway, won the first five places in all Canada for highest milk production in 1930 for 4-year-old cows; three-year-olds took first and third places; and 2-year-olds took first four places. In the mature class the Farm took second highest milk record. The figures were issued by the Livestock Branch of the Dominion Department of Agriculture. 724
